

EYE DEFINE

AFTERCARE

Always follow our post-care instructions, our words of wisdom will minimise the off chance of an infection and keep your eyeliner in perfection!

Aftercare for Eye Define:

- Use a cotton bud to cleanse your eyelid with **Build** before applying **Fix** on the treated area.
- For best results, apply **Build** and **Fix** twice a day when needed.
- Place a cold press over your eyes to ease any swelling.
- Avoid contact with hot or warm water for 24 hours.
- Avoid rubbing the eye area for 7 days.
- Avoid wearing make-up or applying skincare products on and around your eyelids for at least 7 days.
- Do return for a Tune Up around 1-3 months after your treatment.

Our therapists will assess and provide professional consultation to help you maintain optimal results of the treatment.
