

LIP DEFINE

AFTERCARE

Always follow our post-care instructions, our words of wisdom will minimise the off chance of an infection and keep your pout in perfection!

To maintain your perfect pout, we recommend the following:

- Use a cotton bud to cleanse your lips with **Build** before applying **Fix** on the treated area. For the best results, apply **Build & Fix** twice a day or when needed.
- Apply a Lip Mask nightly: mix one spatula of **Build & Fix** together, apply a thick layer on lips and cover with cling film for 10-15 minutes. Dab away excess with a cotton bud.
- Avoid contact with hot or warm water for 24 hours.
- Avoid hot, spicy and seafood for 2 weeks.
- Avoid smoking and the consumption of alcohol for 7 days.
- Lip colour will be in a brighter shade for the first 3 days. Do not pick or scratch at the area. Peeling & scabbing is a natural healing process.
- Avoid makeup and skincare products on your lips for at least 1 month.
- Do return of a Tune Up between 1 – 3 months, our Specialist will assess the result and maintain its perfection with your Tune Up.

REMEMBER! Aftercare is important. Always follow our instructions to prevent the formation of blisters on the lips.
